BUREAU OF LABOR STATISTICS

U. S. DEPARTMENT OF LABOR

For Release: Tuesday, July 02, 2019

19-952-ATL

SOUTHEAST INFORMATION OFFICE: Atlanta, Ga.

Technical information: (404) 893-4222 BLSInfoAtlanta@bls.gov www.bls.gov/regions/southeast

Media contact: (404) 893-4220

County Employment and Wages in Georgia – Fourth Quarter 2018

Employment increased in 8 of Georgia's 10 large counties from December 2017 to December 2018, the U.S. Bureau of Labor Statistics reported today. (Large counties are defined as those with 2017 average annual employment levels of 75,000 or more.) Regional Commissioner Janet S. Rankin noted that employment increases ranged from 2.3 percent in Hall County to 0.1 percent in DeKalb County. (See [table 1](#).)

Nationally, employment advanced 1.5 percent from December 2017 to December 2018 as 296 of the 349 largest U.S. counties had increases. Midland, TX, had the largest over-the-year increase in employment with a gain of 10.0 percent. Bay, FL, had the largest over-the-year decrease in employment with a loss of 5.6 percent.

Among the 10 largest counties in Georgia, employment was highest in Fulton County (889,300) in December 2018, while Bibb County had the smallest employment level (82,900). Together, Georgia's large counties accounted for 57.2 percent of total employment within the state. Nationwide, the 349 largest counties made up 73.2 percent of total U.S. employment, which stood at 148.1 million in December 2018.

Among Georgia's 10 large counties, 9 had over-the-year wage increases in the fourth quarter of 2018 with the largest gain in DeKalb County, up 4.1 percent. Fulton County had the highest average weekly wage among the state's largest counties (\$1,480), followed by Cobb County (\$1,156). Nationally, the average weekly wage increased 3.2 percent over the year to \$1,144. (See [table 1](#).)

Employment and wage levels (but not over-the-year changes) are also available for the 149 counties in Georgia with 2017 average annual employment levels below 75,000. Average weekly wages in these counties ranged from \$1,480 to \$537. (See [table 2](#).)

Large county wage changes

In the fourth quarter of 2018, average weekly wage gains in three of Georgia's large counties placed in the top half of the national ranking—DeKalb (4.1 percent, 84th), Bibb (3.7 percent, 104th), and Clayton (3.3 percent, 146th). Muscogee County had the only average weekly wage decline among the state's large counties with a loss of 3.7 percent over the year.

Nationally, 332 of the 349 largest counties had over-the-year increases in average weekly wages. Tippecanoe, IN, had the largest over-the-year wage gain at 15.1 percent, followed by Williamson, TN (13.1 percent) and Olmsted, MN (13.0 percent).

Of the 349 largest U.S. counties, 15 had over-the-year wage decreases. Washington, PA, had the largest percentage decrease in average weekly wages (-6.6 percent), followed by Elkhart, IN (-5.0 percent).

Large county average weekly wages

Average weekly wages in 4 of Georgia's 10 large counties placed in the top half of the national ranking in the fourth quarter of 2018. Fulton (\$1,480, 18th) and Cobb (\$1,156, 86th) had average weekly wages above the U.S. average of \$1,144. DeKalb (\$1,127) and Gwinnett (\$1,068), ranked 103rd and 146th, respectively.

Nationwide, average weekly wages were above the U.S. average (\$1,144) in 94 of the 349 largest counties in the fourth quarter of 2018. Santa Clara, CA, had the highest average weekly wage at \$2,670, followed by San Francisco, CA (\$2,452); San Mateo, CA (\$2,410); and New York, NY (\$2,400).

Among the largest U.S. counties, 255 had weekly wages below the national average in the fourth quarter of 2018. Hidalgo, TX (\$680) reported the lowest wage, followed by the counties of Cameron, TX and Horry, SC (\$685 each).

Average weekly wages in Georgia's smaller counties

Among the 149 smaller counties in Georgia – those with 2017 average annual employment levels below 75,000 – only Burke County (\$1,480) had an average weekly wage above the national average of \$1,144. Taliaferro had the lowest average weekly wage in the state, averaging \$537 in the fourth quarter of 2018. (See [table 2](#).)

When all 159 counties in Georgia were considered, 60 reported average weekly wages below \$700, 52 had wages from \$700 to \$799, 33 had wages from \$800 to \$899, 7 had wages from \$900 to \$999, and 7 had wages above \$1,000. (See [chart 1](#).)

Additional statistics and other information

QCEW data for states have been included in this release in [table 3](#). For additional information about quarterly employment and wages data, please read the [Technical Note](#) or visit www.bls.gov/cew.

Employment and Wages Annual Averages Online features comprehensive information by detailed industry on establishments, employment, and wages for the nation and all states. The 2017 edition of this publication contains selected data produced by Business Employment Dynamics (BED) on job gains and losses, as well as selected data from the first quarter 2018 version of the national news release. Tables and additional content from *Employment and Wages Annual Averages 2017* are now available online at www.bls.gov/cew/cewbultn17.htm. The 2018 edition of *Employment and Wages Annual Averages Online* will be available in September 2019.

The County Employment and Wages release for first quarter 2019 is scheduled to be released on Wednesday, August 21, 2019. The County Employment and Wages full data update for first quarter 2019 is scheduled to be released on Wednesday, September 4, 2019.

BLS Local Data App Now Available for Android Devices

The BLS Local Data app, first released for iPhones last fall, is now available for Android devices. Search using your current location, a zip code, or a location name to find employment and wage data for detailed industries and occupations. BLS continues to partner with the U.S. Department of Labor's Office of the Chief Information Officer to expand the features and data in the app. For more information please visit: <https://beta.bls.gov/labs/blogs/2019/04/17/bls-local-data-app-now-available-for-android-devices/>.

Technical Note

Average weekly wage data by county are compiled under the Quarterly Census of Employment and Wages (QCEW) program, also known as the ES-202 program. The data are derived from summaries of employment and total pay of workers covered by state and federal unemployment insurance (UI) legislation and provided by State Workforce Agencies (SWAs). The average weekly wage values are calculated by dividing quarterly total wages by the average of the three monthly employment levels of those covered by UI programs. The result is then divided by 13, the number of weeks in a quarter. It is to be noted, therefore, that over-the-year wage changes for geographic areas may reflect shifts in the composition of employment by industry, occupation, and such other factors as hours of work. Thus, wages may vary among counties, metropolitan areas, or states for reasons other than changes in the average wage level. Data for all states, Metropolitan Statistical Areas (MSAs), counties, and the nation are available on the BLS Web site at www.bls.gov/cew/; however, data in QCEW press releases have been revised and may not match the data contained on the Bureau's Web site.

QCEW data are not designed as a time series. QCEW data are simply the sums of individual establishment records reflecting the number of establishments that exist in a county or industry at a point in time. Establishments can move in or out of a county or industry for a number of reasons—some reflecting economic events, others reflecting administrative changes.

The preliminary QCEW data presented in this release may differ from data released by the individual states as well as from the data presented on the BLS Web site. These potential differences result from the states' continuing receipt, review and editing of UI data over time. On the other hand, differences between data in this release and the data found on the BLS Web site are the result of adjustments made to improve over-the-year comparisons. Specifically, these adjustments account for administrative (noneconomic) changes such as a correction to a previously reported location or industry classification. Adjusting for these administrative changes allows users to more accurately assess changes of an economic nature (such as a firm moving from one county to another or changing its primary economic activity) over a 12-month period. Currently, adjusted data are available only from BLS press releases.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Footnotes:

(1) Average weekly wages were calculated using unrounded data.

(2) Percent changes were computed from quarterly employment and pay data adjusted for noneconomic county reclassifications.

(3) Ranking does not include data for Puerto Rico or the Virgin Islands.

(4) Totals for the United States do not include data for Puerto Rico or the Virgin Islands.

Note: Data are preliminary. Covered employment and wages includes workers covered by Unemployment Insurance (UI) and Unemployment Compensation for Federal Employees (UCFE) programs.
